

MORE HOT NEW PRODUCTS

MIMAKI JFX PLUS

The series is 80% faster than Mimaki's existing JFX-1631 model and can be optionally equipped with a roll unit for uninterrupted web printing. The JFX plus series achieves a maximum print speed of 23.6 sqm/h (300 x 600dpi / 4pass / bidirectional) due to the new standard installation of a post-curing unit, whereby the ink gets a secondary curing after the UV curing. **GRAPHIX SUPPLY WORLD CT** (+27 21) 511 5340 DBN (+27 31) 569 5116 JHB (+27 11) 444 9288 marketing@gsww.co.za www.gsww.co.za

OCÉ COLORWAVE 600

The Colorwave 600 is a highly productive, roll-to-sheet, large format colour printer that produces over 56 square metres (600 square feet) per hour of instant-dry poster output on plain paper without the need for additional finishing. It can hold up to six media rolls, from 27cm to 106cm (11 to 42 inches) wide and up to 198m (650 feet) long. **OCÉ** (+27 11) 661 9555 jacos@oce.co.za www.oce.co.za

HEXACOMB

Hexacomb is suitable for print applications such as point-of-purchase (POP) displays, interior signage, exhibits, kiosks, framing, mounting, specialty print market, direct digital printing, direct screen printing, and painting. It is also suitable for building direct digital printing POP displays, interior signage, exhibits, kiosks, mounting and painting. **ANTALIS SOUTH AFRICA** (+27 11) 688 6000 rgovinder@antalis.co.za www.antalis.co.za

RIGIFLEX

Rigiflex is a unique, patented system for fixing a flexible face into a frame. Thanks to its award winning zip-in, zip-out operation, the Rigiflex extrusion achieves the security grip and tension of a large banner in a single action. It only takes a few minutes for one man to change a giant visual. As all posting operations are done in front of the frame, swapping graphics is perfectly simple. The handles provided eliminate the need for any extra tools. **PRISMAFLEX** (+27 11) 823 5008 sean@prismaflex.co.za www.prismaflex.com

AGFA JETI 1224

The robust 2.4m wide engine can now handle both rigid and flexible materials with equal power, throughput quality and efficiency on both media types. As well as being able to print to rigid substrates up to 50mm thick, the FTR option supports media rolls of up to 113 kg (250 lbs). The machine's practical configuration means it can be operated by a single user, with fast and simple change-over between flat-bed and FTR roll-fed modes. **AGFA GRAPHICS - INKJET** (+27 11) 315 7272 eric.morgan@agfa.com www.agfa.com/graphics

KONGSBERG XP AUTO

The Kongsberg XP Auto is an extended new version of the XP cutting table. It incorporates automatic loading and unloading to give the highest digital converting capacity available. It is the perfect complement to a wide format digital printer, enabling a full digital production workflow for POP displays and short-run packaging work. Designed for high productivity, 24/7 continuous operation. **KEMTEK IMAGING SYSTEMS** (+27 11) 624 8000 gordons@kemtek.co.za www.kemtek.co.za

EMBLEM WATER BOOK

The water book sports semi matt and glossy ultra white photo paper (190gr.), new polyester front print backlit (215µ), M-1 flame retardant paper, Budget Artist Canvas semi matt (360gr.), high quality roll-up film, silver backing (coating based on EMBLEM'S trad. TDF), improved double side adhesive film, perm/semi perm, single side covered, 70µ improved double side adhesive film, crystal clear perm/perm (70µ). **GRAFICOMP** (+27 11) 792 1348 graham@graficomp.co.za www.graficomp.co.za

HP DESIGNJET T7100

A high-speed monochrome and colour printing system with breakthrough total cost of ownership compared to competing technologies. Designed for central reprographic departments in enterprises and reproduction houses. It streamlines print production for customers needing to print in colour, from simple CAD drawings to high-quality presentations. **HEWLETT PACKARD Jaun-onic Maritz** +27 (0) 82 495 6800 sajo@hp.com www.hp.com

NESCHEN DYETEX

The new DYEtex flag and DYEtex display are knitted polyester fabrics with excellent print through characteristics which allow them to be printed onto directly using dye-sublimation inks to produce brilliant, colourful output. The resultant flags, banners and other display systems are durable and as equally suitable for outdoor use as they are indoors. **BIG MEDIA SUPPLIES** (+27 21) 851 0952 / +27 (0) 86 516 6357 trevor@bigmediasa.co.za www.bigmediasa.co.za
