

## SUMMA F1612S

Summa has shipped its first F1612s. These are Summa's first flatbed cutters, with which the company launches a whole new product line: Summa F Series. The F1612 stands for versatility, user friendliness and, above all, top quality. Moreover, selling the first F Series is remuneration for years of extensive research by the company. **MIDCOMP (+27 11) 789 1222 sales@midcomp.co.za www.midcomp.co.za**

## AGFA GREYSCALE

Agfa has incorporated new greyscale technology and faster production modes in the latest revisions to its M-Press Tiger digital press. This latest upgrade means the M-Press Tiger can now output up to 1267sqm/hour (13640 sqft/h) with even higher image quality. **AGFA GRAPHICS - INKJET (+27 11) 315 7272 eric.morgan@agfa.com www.agfa.com/graphics**

## VIPER TX PROFESSIONAL

The Viper TX Professional is an all new digital direct to fabric production printer with a moving adhesive belt system. This heavy-duty piezo drop-on-demand inkjet printer has been purpose-built for direct printing onto stretchable, knitted, woven and open structure fabrics, such as PES flag, cotton, nylon, lycra, silk and poplin. **MIPS TECHNOLOGIES (+27 11) 451 8600 mipstech@iafrica.com www.mutoh.com Artec is a new distributor of Mutoh (+27 11) 466 2468**

## ZÜND DRIVER

The driver, which was developed in close cooperation with Zünd, meets all the extensive requirements in the catalogue of specifications and helps to maximize the productivity of the latest generation of multifunctional, digital cutting systems. **MIDCOMP (+27 11) 789 1222 sales@midcomp.co.za www.midcomp.co.za**

## AFRIJET

Nashakele Distribution launched the new Afrijet infra-red printer at Sign Africa 2010. Conceptualised and designed in South Africa, it is a world first and the only printer on the market that is completely assembled locally with imported and locally sourced components. **NASHAKELE +27 (0) 87 940 1590 michelle@nashakele.co.za www.nashakele.co.za**

## NESCHEN DYETEX

Neschen has added new fabrics to its range with the addition of 'DYETex flag 110 B1' and 'DYETex display 220 B1' to complement the 'VARItex decoframe 250 B1 CA' it launched at Fespa. The new DYETex flag and DYETex display are knitted polyester fabrics with excellent print through characteristics which allow them to be printed onto directly using dye-sublimation inks to produce brilliant, colourful output. **BIG MEDIA SUPPLIES (+27 21) 851 0952 /+27 (0) 86 516 6357 trevor@bigmediasa.co.za www.bigmediasa.co.za**

## EZEE APPLICATOR

This amazing machine was conceptualised and developed over a period of a year by engineer Kevin Richards, who co-owns Ogwini Engineering with two partners. Sytech Supplies took another six months to thoroughly test the machine on a variety of media, with a plethora of substrates and under different conditions. Every result was a pleasing one. **SYTECH SUPPLIES (+27 31) 701 4500 sales@sytechsupplies.com www.sytechsupplies.com**

## SEAL 54 EL

SEAL Graphics has extended its machine range with the launch of the entry-level roll laminator: the SEAL 54 EL. It allows printers and finishing houses new to film mounting and laminating to enter this sector of the finishing market at minimal cost, while still enjoying all the benefits of the SEAL brand in terms of quality of production, performance and ease-of-use. **KEYMARK MEDIA (+27 11) 448 2033 Richard@keymark.co.za www.keymark.co.za**

## WARP FIVE PREMIER PAVEMENT SIGN

Ideal for use outside restaurants, forecourts and retail outlets and inside banks, museums and shops. The design allows for an increased graphic size with low profile trim. This versatile sign enables the sign maker to easily apply self-adhesive vinyl prior to a quick and easy assembly. **WARP FIVE (+27 21) 786 4467 info@warpfive.co.za www.warpfive.co.za**
